MATSQUI COUNCIL

The regular meeting of the Matsqui council was held on Saturday October 7, with councillor Cruickshank the only absentee.

The minutes of the previous meeting were read and adopted.

Communications were received as follows;

From A. E. Farr for Farr Brothers stating that they approved of the construction of the road along the right-of-way of the C. N. P. Ry Co. The reeve and Councillors Satchell and Aish were appointed a committe to inspect the route of the proposed road.

From Local Option League asking council to pass a resolution, "That in the opinion of the Municipal it is desirable that the council have power, on a petition of 15 per cent of the electors to submit a by-law to the electors in the form of a plebiscite, giving the council power to reduce liquor licenses in the municipality on a majority vote of the said electorate at any municipal election." The clerk was instructed to reply that as there are no liquor licenses in existence in the municipalyt, the council did not desire to take any action.

From the B. C. E. R. asking approval of crossing to King's mill near Dennison's. This was granted on motion.

From Canadian Bank of Commerce acknowledging deposits; Municipal account $1,746.71; School account $799.68.

From L. Coghlan asking that the road be straightened in front of his land. Councillor Satchell stated he had no money available.

From Western Canada Power Company asking return of cheque for $600. The clerk was instructed to return the same and forward an expense account against the company for $25.

From secretary U. B. C. M. asking that full representation be made at the convention to be held in Victoria on 15th and 16th November as matters of special importance would be discussed. The reeve was appointed a delegate with Councillor Aish as alternate and the reeve and clerk were instructed to prepare and forward a resolution bearing on the matter of roads through sub-divisions.

From R. Atkinson re road from S. W. 1-4, S. 3; T. 14 to B. C. E. R. Referred to Councillor Satchell.

Mr. Kruger representing J. Malahen addressed the council urging acceptance of sub-division plan of S. 1-2, N. W. 1-4; S. 23. T. 14. The reeve and Councillor Satchell were appointed a committee to investigate the road allowances as shown also the connection with these and existing roads and refer the matter to municipal solicitors. If they advised acceptance to sign the plan.

From Secretary Matsqui Farmers Institute asking use of Municipal Hall on Monday, October 16th, on which date a presentation will be made to Dr. Hadwin. Granted under usual conditions. Permission was also granted the employees of Northbrooke Shingle Co. on October 20th.

The following resolutions were duly introduced and carried;

1. That the sub-division plan of E 1-2 of Lot 44, Group 2, be accepted and signed by reeve and clerk.

2. That the clerk write superintendent of the C. P. R. asking that the crossing of the Page road at Matsqui be widened; also that a gate be put on the south end of the siding there and thereby obviate the necessity of teams being obliged to turn around on the siding.

3. That the clerk sign officially the petition of the settlers interested asking for a station on B. C. E. R. on Le Feuvre road; also that said station be named Nicholl.

4. That H. R. Phillips be instructed not to give out any more stumping powder for municipal road work without an order from the council or one of the councillors.

5. That Councillor Lundeberg be authorized to grade a part of the Williams road at a cost not to exceed $30, also to change a portion the Greer road through the property of James Murphy sothat a better grade may be obtained and to exchange the land used for road purposes there for the land to be used for the new road; the said new road to be laid out by a competent engineer.

6. That Councillor Aish be permitted to get the Beherrell road slashed to the new dyke at a cost not to exceed $50.

Bills were passed for payment as follows; Powder account: Ward 2 $129.25; Wm. Towlan, road work Ward 1, $39.20; Walter Towlan road work Ward 1 $40.80; J. T. Aish, indemnity $25; E. Lundeberg, indemnity $25; Wm. Merryfield, indemnity $25; Alex Cruickshank indemnity $25; G. Satchell indemnity $25; Dr. Swift indemnity $25; C. M. C. September salary $33.30, postage $4; bounty paid $3.50; road work paid Ward 1, $3.55; Ward 2 75c; Ward 4, $12; Abbotsford Timber and Trading Co. commission road tax collected $20.40; road work Ward 3 $157.50; lumber Ward 1 $29.70; Jos E. Smith, grading Glenmore road north of the B. C. E. R. $7.50; moving pile driver by Fowler $4.50; James Conray $40; P. Conray $.0; F. Coghlan hauling gravel $6; L. Coghlan assisting $2.75; Jas Murphy $9; Jesse Gardner $6.75; Frank Wooler $8.25; Wilfrid Macey $1.25 removing windfall Robert Fallis $12.10; V. Ferguson $3; Malcolm Sinclair $27.50; Duncan Sinclair $12.50; A. Lundeberg $10 Fred Lund $28.45; A. E. Gledhill $16.20; J. A. Gledhill $34.65; E. W. King, lumber for cemetery $2.15; B. C. Gazette $9.25; Gotford John-Johnson livery for Dr. Swift re small pox epidemic $3; A. M. Nelson refund of statute labor paid and worked $6; C. A. Society July, Aug and Sept. account $30; A. Nordin clearing Maple Grove cemetery $165.

A petition was presented for a road connecting the Ford road, the Page road and the Hargitt road, the land to be given by the property owners. This was granted on motion. Mr K. O. Brotnow to be paid $140, and Mr. J. T. Aish $100 respectively as compensation for improvements and for fencing.

Councillor Lundeberg reported he had no money available for road work asked by C. Hill-Tout et al.

The council adjourned to meet in the Municipal Hall on Saturday November 4 at 10 o'clock a.m.

The clerk was instructed to be at Matsqui village on Saturday October 28 and Merrifield Bros. store building on Monday October 30 for the purpose of receiving taxes.

CLAYBURN vs. ABBOTSFORD

The Abbotsford boys journeyed to Clayburn on Saturday last and there met the local team in a friendly match with the following line up; Featherstonehaugh, V. Harrop, Hogg, Williams; Wells; Adams, Metcalfe; Campbell; Ferguson, McGowan and Brown.

The game was stubbornly contested for sometime, until McGowan broke through and opened the scoring. After some good defence work by Goughof Clayburn McGowan accepted a pass from Metcalfe and again beat Fraser. A little later the left wing which was being admirably fed by Adams ran in and Brown scored. This was all the scoring in the first half.

Just after the second half commenced, Clayburn came away in a rush and beat Metcalfe who had changed places with Featherstonehaugh. Their success was short lived however as McGowan headed through a dandy cross from the right wing. Abbotsford kept right on Brown and McGowan again scoring for the visitors who retired victorious by 6 goals to one.

There was not a weak spot on the Abbotsford team on Saturday, although it was really an eleventh hour selection and the players all showed the benefit of their practices. Victor Harrop and Hogg put up an excellent defence. Walter Wells keeps improving every week. Adams was the most artistic half, the left wing was conspicuous all through; Brown making his best showing for this season. Ferguson and Campbell also did excellent work.

There will be a much harder match this week when Langley will be played in a league match at Langley and if the boys win or even draw there they will just about clinch the league.

An account of the Clayburn match would not be complete unless the hospitality of the Clayburn boys whom Abbotsford take off their hats to as the best of sports in the district.

The convention of Christian workers held in the Presbyterian church last Tuesday the 17th was largely attended and greatly enjoyed. Addresses of a stimulating and instructive character were given by Rev. R. P. MacHay D. D. Moderator of the General Assembly; Rev. Principal MacKay of Vancouver; Rev. J. G. Shearer, D. D. and Rev. G. A. Grant D. D. of Toronto and the Rev. R. J. Wilson of Vancouver. Rev. Mr. Hughes of the Methodist church, Sumas Week.

Rev. Mr. Yates who spent some time in Abbotsford last winter, has returned to Abbotsford, this time to stay. Mr. Yates will be the new vicar of St Matthews. Rev. Mr. Bruce who has been here for some time has been appointed as vicar of St. Luke's parish South Vancouver.

Concrete Work in Freezing Weather

UNTIL a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set," it will not be injured, but if the freezing takes place after the "setting" action has started up, the concrete is likely to be damaged when it thaws, owing to the expansion of the melting water, forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below and secondly, you must protect the concrete after it has been placed in the "forms."

PREPARATION OF MATERIALS.

Concrete will, on its own account, develop a certain amount of heat in the "setting" process. But in cold weather, some outside assistance, in the form of artificial heat, is necessary. The best way to develop this artificial heat is to warm the materials before mixing. This shortens the time that it takes the concrete to "set" and lengthens the time necessary to bring it to the freezing point. Bear in mind that the less water used the quicker concrete "sets." Therefore, it is advisable to use as little water as possible in the mixing during cold weather.

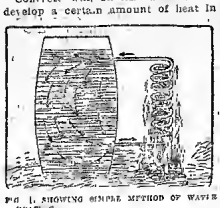

FIG 1. SHOWING SIMPLE METHOD OF WATER HEATING

HEATING WATER.

A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig 1). A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done, by taking a log or fence-post about the size of the coil, and bending the pipe around it. This method prevents the pipe from "buckling" and makes the coils more regular in size.

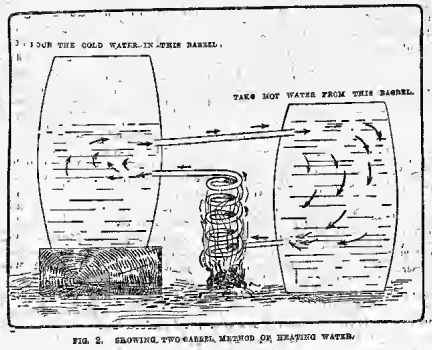

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

Where concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

FIG 3 SHOWING HOW MATERIALS MAY BE HEATED BY MEANS OF A FIRE IN AN OLD STOVE-PIPE

HEATING SAND AND STONE.

Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the cinders are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove pipes, and will soon thaw out and become heated.

In very cold weather, the cement may be heated, by laying the bags on top of the sand, but this is not absolutely necessary, as the cement itself must be kept dry until used, whether the weather be hot or cold.

TEMPERATURE REQUIRED.

Materials should not be heated to too high a temperature. A good way to judge the proper amount of heat is to make them just hot enough to be comfortable to touch. Care should be taken not to use any frozen lumps of sand.

PROTECTING CONCRETE IN POSITION.

After the concrete has been placed in "forms" it should be protected so as to keep the heat in as long as possible. This is more essential in thin structures than in massive walls and foundations, for the latter will hold their own heat longer on account of their thickness.

Wooden "forms" are non-conductors, and will retain the heat in the concrete up to a certain point, but the concrete should be protected on top by a covering of canvas or heavy paper, with a layer of ten or twelve inches of manure on top of this. Straw will also answer the purpose. If manure is used, care should be taken to prevent it from coming in contact with the concrete, as it will discolor it, and possibly even seep through sufficiently to weaken the structure.

PROTECTING THIN STRUCTURES.

In the case of thin walls where extra cold weather calls for additional protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4.) thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

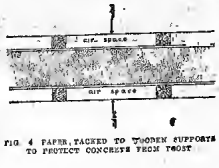

FIG 4 PAPER, TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM FROST

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

LIVERY AND FEED STABLE

Having purchased the business of Mr. W. Lyle, I am prepared to give the best of satisfaction as to prices and comfortable rigs. Stables open day night to do business.

We solicit your patronge.

ELECTRICITY ON THE FARM

Labor Will be Trifling When Time Comes

Hired, Man Will Dwell in Earthly Paradise—Just Turn on The Current.

In these days when the metropolitan city may be described as a great electrical laboratory and and consuming station, it should not be overlooked that the farm itself is coming in for its share of this unversal source of power.

There are many ways through which the farm that can afford the use of the electric current may have it for the trouble of installation. Some near-by inter-urban electric line may have its surplus current for sale; some stream closest hand may have a gravity water ram to develop electricity sufficient for half a dozen farmers; or the gasoline engine in connection with a dynamo is within comparatively easy reach of the prosperous farmer who discovers that to keep his boys on the farm—even to make certain that his hired help will stay with him through the season—it is up to him to hasten those old drudgeries of twenty years ago.

Joy For Farmer's Wife

In the home of the farmer, the first adaptation of theelectric current would be in displacing the kerosene lamp. A motor in the basement and a pump and tank on the outside would effect a system of water-works for the house. In the dairy, the cream separator, churn, washing machinery for dairy necessities can be operated. Laundry work—that bugbear of the farmer's wife—is simplified and lightened to the last degree. Even the long-sought "milking machine" is to receive an impetus at the hands of Yankee ingenuity and if it shall be perfected, the electric current must drive it.

Will Be General Boon

In the cow barns and horse stables the electric bulb attached to wires in gaspipe housings not only will give the safety lighting for winter mornings and evenings, but already the vacuum cleaner has made its appearance, adapted to the easiest and most thorough currying and cleaning of the coats of cows and horses.

Instead of the long and laborious process of ice cutting from ponds, the electric current will operate the refrigerating room's ammonia fumes, with automatic stoppage of the motor when the required degree of cold is reched. The power may be directed to the farm work shops where laths and grindstones and emery wheels may be run for the farm's "jack-of-all-trades," saving not only the charges of the village blacksmith in hundreds of troubles, but save the time of driving to and from the town.

Save Fruit From Frost

In some of the northern fruit growing sections the electric warning signal is set for, arousing the whole farm population any time in the night when the danger temperature is reached out of doors. This means at the present time that every available worker turns out and kindles fires in the smudge pots that are set in the orchards, prepared for the dangers of frost. But as electricity is light, power and heat, all in one, may not the present smudge pots become electrical heaters, automatically turned on? To-day there is not a practical electrical engineer who does not look upon the present state of electrical service as in its infancy We have the electrical city. How long before the electrical farm?

NEW FRASER RIVER FERRY

The new ferry across the Fraser River at Mission City will be a reality in the course of a week or fortnight. The ferry is receiving the finishing touches now, and the approaches at Elliotville and Mission City are now being completed

According to report the new ferry, which will likely be named Sprott, McBride or Manson is a ferry of the first order, double-decked, and capable of carrying six teams besides the passengers Gasoline will be the motive power

Report has that the ferry will be free, although no authentic information has as yet been given out in this respect. Hourly trips will be made.

It is planned to have a grand opening day when it is hoped all the Valley will be present to take in the sights. A banquet will probably be given in the evening.

The new ferry across the Fraser will complete the last link in the Fraser Valley Automobile route—a pleasure trip which this paper has consistently advocated.

THE MARKET.

All prices remained much the same. The following are the quotations;

Wholesale Meat.	
Veal, small	11½c to 12½c
Veal large	9c to 10c
Mutton	10 to 11c

Ducks	$9.00 to $11.00
Ducklings	$7.00 to $9.00
Geese, each	$1.00
Alaska pink salmon, each	25c
Poultry.	
Hens, small	$6.50 to $7.50
Hens, small, retail	$7.50 to $8.50
Hens, large	$7.00 to $8.00
Hens, large, retail	$8.50 to $11.00
Chickens	$6.00 to $8.00

FOR SALE—Chestnut horse, 5 years old, soun and true, weight eleven hundred Also an imported Oxforddown Ram, 3 years old and a quantity of awe lambs (graded) Apply, R. A. Thompson, Dewdney, B C.

PIANO TEACHER—H. G. Copley, the pianist at the Vancouver Opera House intends teaching in Mission in the immediate future and would be pleased to receive applications through the mail. Terms $1.00 per lesson. Two lessons weekly Address Box 271, Vancouver, B. C.

SOCIAL AND PERSONAL

Mr. B. J. Gernney has leased Mr D. Fraser's house for one year.

Mr. Cyril Harrop is sick in the Sumas hospital with typhoid.

Mr. Dan Kenny is home from the Harrison Hot Springs.

Mr Isenor will soon move into his new premises in the Campbell block

Miss Lavery and her mother of New Westminster were in town on Thursday.

Thursday was Mr. B J. Gernney's birthday. The question now is how much more than thirty is he. Guess.

Miss Moore is spending a few days with her mother in Victoria where her friends are entertaining her to a birthday party.

Mark November 10th on your calendar and read the Post next week.

—o—

Mr. J. A. Blair of Vancouver, was in town this week for a few days

Rev. Mr. Burch of the Westminster Theological Hall will speaks in the Presbyterian church next Sunday the 22nd morning and evening services.

—o—

The provincial Sunday School association will meet in Westminster on the 25, 26 and 27th of this month. There will be a big rally of all the Sunday School workers.

—o—

Rev. Mr. Paton who has labored twenty years on the New Hebrides and son of the celebrated Dr. John G. Paton will give an address on his work in the Presbyterian church on Thursday evening the 26th. All welcome. Hear a great man on a great work. enjoyed.

Mr. D. Morrison will entertain the lovers of the Highland Scotch lang nagg at a Ceilidh on Monday evening the 23rd in the Orange Hall Dancers "Shoulder together."

—o—

Dame Rumor, who is seldom at all wrong has it that young Pat Burns, now employed with Mr. Copping as chief cutter, has now secured the cage, and all that is required to cement the lives of two of our citizens is the little document signed by the preacher "Pat" says the bird is a lovely singer and warbles like the horse mackerel. They will spend their honeymoon on the eastern shores of Abbotsford lake.

Mrs. T. C. Coggan is visiting with friends at Acme, Wash. and now "Tom" is monarch of all he surveys.

—o—

was a welcome visitor. Friends were present from Rosedale, Chilliwack, Agassiz, Mission. Haney, Port Moody, Whonnock and Langley and Mt. Lehman. The convention was a preparatory step to an Evangelistic campaign in the Fraser Valley.

The football dance last evening was a grand success A full report will appear next issue

—o—

Mr. George Clark who resigned the position of agent here intends to go into business for himself in the clothing and gents' furnishing lines just as soon as his new store is completed—about the first of the month. Mr. Clark is well known in the district and should do well in business here for himself.

When in Abbotsford call at
THE BAKERY
and take home some home made Candy, Cakes and Pastry of all kinds.
Abbotsford, Bakery ALBERT LEE, PROP.

On Thursday last there was witnessed in our town one of the finest exhibition of sprinting ever seen anywhere when Mr. Copping's horse Maud S. was defeated by one of our citizens in a race from in front of the bank as far as the post office. Mr. J. A. Blair one of the sporting men of Vancouver was starter. The man on foot was to take the sidewalk and Copping was to mount his pacer and at the sonorous voice of the starter both were to start for the winning point. After some false moves a proper start was made and away they went every bystander was betting on the foot racer and rightly so for he was the winner. The time-keeper's stop watch bust at the vital moment consequently we are unable to give the correct time but we have reason to believe it was record speed never yet attained

Now many people will wonder why the name of the winner is withheld but as he is of a retiring and modest disposition and has no time to accept other challenges it is deemed wise not to make his name public.

The winner was good natured and in a general assemby he was admitted as a member of the Good Fellows.

Another race was gotten up afterwards and Maud S. won against Bates (That is not the editor of this paper, but the other fellow); but this time the horse did not fast go towards the butcher shop or thel livery stable while running the race.

B. C. POTATOES

Mr. Asahel Smith has been for the past month gathering potatoes from all parts of the province to to take to New York to compete for the $1000 silver cup given by A. E. Stilwell, president of the Kansas City, Mexico and Oriental railway for the best exhibit of marketable late potatoes grown in 1911.

There are other trophies to be competed for;

$1000 silver cup for wheat, given by J. J. Hill.

$1000 in gold for wheat by President Shaughnessy.

$1000 silver cup for corn.
$1000 silver cup for oats.
$1000 silver cup for cotton.
$1000 silver cup for barley.
$1000 silver cup for sugar beets
$500 in gold for apples.
$1000 silver cup for hops.
$1000 silver cup for alfalfa.

The exhibition will be held in New York between November 3rd and 11th on Madison Square

British Columbia competes only in potatoes.

The pheasant season opened on Sunday last and hundreds of guns were sending the shot in all directions throughout the Fraser Valley.

The pheasants were plentiful and also were the signs "no shooting allowed" the farmers believing in the law of self-preservation.

LIQUOR ACT, 1910.

(Section 42)

NOTICE is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for renewal of the hotel license to sell liquor by retail in the hotel known as the Commercial Hotel, situate at Abbotsford, in the Province of British Columbia.

Dated this 26th day of September. 1911.
